

Health and Safety Policy

Health and safety policy arrangements

This section details the arrangements for the effective management of health and safety.

A copy of our current general statement of health and safety policy can be found in Part 1. This sets out our commitment to provide and maintain safe working conditions for our employees, students and others who may be affected by our activities.

We will ensure that the objectives of this statement are communicated to our employees and students, initially through our induction training and our relevant Handbooks. We will also monitor progress towards these objectives at senior management level and we will review them annually in consultation with our employees and other interested parties.

The policy is supported by our health and safety management organisation and responsibilities.

We are aware that senior managers within the company are individually and collectively responsible for health and safety. Therefore, specific responsibility for health and safety has been assigned to the Health and Safety Officer and Welfare Support (See Part 2). The Director is the person with overall responsibility for health and safety.

The Health and Safety Officers (Jenny Clark, Susan Han) who are responsible for managing health and safety matters on a day to day basis. The Health and Safety Officers will manage our health and safety programme, ensuring that all the essential elements of the system are implemented, monitored and reviewed. However, we are aware that we can only meet our objectives through the efforts of our employees and students; therefore, we have established clear lines of communication and encourage our employees and students to cooperate with us in achieving our objectives.

We recognise that the key to successful health and safety management is to ensure each employee and student is (via staff CPD and briefing of Students, see student code of conduct) competent to carry out their responsibilities. To this end we have developed and implemented a training policy which clearly defines who is responsible for training and identifies what training each individual needs, based on the results of our risk assessments (refer to Risk Assessment policy on website).

Part 1 – General statement of health and safety policy

It is our policy to ensure, so far as is reasonably practicable, the safety of all employees and any other persons who may be directly affected by the activities of the Centre.

The college policy is to:

- 1) Comply with legal requirements through good occupational health and safety performance.
- 2) Provide adequate resources to implement this policy.
- 3) Establish and maintain a safe and healthy working environment.
- 4) Ensure that significant risks arising from work activities under our control are eliminated or adequately controlled.
- 5) Develop and implement appropriate occupational health and safety procedures, and safe working practices.
- 6) Include the management of health and safety as a responsibility of managers at all levels.
- 7) Ensure this policy is understood and implemented throughout the organisation.
- 8) Involve employees in health and safety decisions through consultation and co-operation.
- 9) Maintain workplaces under our control in a condition that is safe and without risk to health.
- 10) Regularly review compliance with the policy and the management system that support it.
- 11) Provide sufficient information, instruction and supervision to enable all employees and students to avoid hazards and contribute to their own health and safety at work.
- 12) Ensure that employees and students receive appropriate training, and are competent to carry out their designated responsibilities.

Part 2 – Organisation and Responsibilities

The following responsibilities have been assigned to competent people to enable us to meet the objectives of our health and safety policy.
